REPORTÉE AND PRIVAPLAN ANNOUNCE PARTNERSHIP TO PROMOTE HIPAA COMPLIANCE PRODUCTS AND SERVICES

*Partnership Targets Fax Security Solutions for Medical Practices, Hospitals, Healthcare Plans and
Public Health Entities*

Redwood City, CA—July 8, 2004 – Today Reportée™ and PrivaPlan Associates, Inc. announced a strategic partnership designed to promote new products and services that help ensure the secure exchange of sensitive medical information via fax.

Reportée is a software company that specializes in highly accurate, low cost solutions for data input, routing and integration of faxed information. “Our goal is to increase doctor and patient service by shortening processing time and validating submissions. We maintain HIPAA security by eliminating manual steps and the resulting process risks. SmartForms’ built-in database provides the intelligence to perform actions not available today, such as automatic indexing, routing, logging and messaging,” said Varda Treibach-Heck, President of Reportée.

Based on a new paradigm in structured data, Reportée’s SmartForms technology allows for rapid data recognition with a 99.9% accuracy rate. Reportée’s patent-pending technology reads, extracts, and automatically connects hard copy information to workflow. A configurable Unique Identification system works with a client’s data to automate routing and customize delivery.

“PrivaPlan and Reportée solutions and expertise are complementary and provide a highly practical solution to prospective clients in fax intensive situations. PrivaPlan will review the flow of information and confirm that it meets HIPAA requirements for security and privacy,” stated David Ginsberg, President of PrivaPlan Associates, Inc. “In all of our highly rated products and services, PrivaPlan Associates demonstrates every day its commitment to provide economical solutions to the healthcare industry.”

PrivaPlan is a leading source of HIPAA compliance expertise including HIPAA Privacy, HIPAA Security, and HIPAA EDI/TCS. PrivaPlan offers a broad array of products and services including the acclaimed PrivaPlan™ HIPAA Privacy and Security Compliance Resource Kit, the only comprehensive, economical,

easy-to-use, do-it-yourself HIPAA compliance solution, endorsed by medical associations and recommended by malpractice carriers nationwide. PrivaPlan Associates also provides a variety of customized education, training and consulting services on numerous aspects of HIPAA compliance. PrivaPlan will soon release its newest offering for the HIPAA security rule, "HCAT", a web based assessment and documentation tool designed to complement PrivaPlan Resource Kit.
